

FLEXIBLE LED LIGHTING RIBBON

It is designed by softly PCB board, and use high super bright SMD or TOP LED as lighting body. Three or Five LEDs as a unit, can be bent and cut as your wish.

- 6mm, 8mm or 12mm width, “3M” brand sticker
- High-brightness, symmetrical facular and good color

Consistency

- Low power consumption
- Long working life and 5 years of system quality guarantee
- Safe and work with 12V or 24V low pressure direct current
- Maintenance-free and suitable for various bad environment such as shaking, wind & snow and high & low temperatures
- Standardized and there are many colors of light source for choosing such as red, yellow, blue, green, white, etc.

Description	Part No	Current Per Piece (mA)	Consumption Watts Per Piece/12V	Number of LED	Max. No. of One Loop	Intensity(mcd)
Red	JYS-SMD-60R-12V	20mA*20	0.24W*20	60	12	600mcd*60
Yellow	JYS-SMD-60Y-12V	20mA*20	0.24W*20	60	12	500mcd*60
Blue	JYS-SMD-60B-12V	20mA*20	0.24W*20	60	12	250mcd*60
Green	JYS-SMD-60G-12V	20mA*20	0.24W*20	60	12	650mcd*60
White	JYS-SMD-60W-12V	20mA*20	0.24W*20	60	12	1000mcd*60
Warm White	JYS-SMD-60WW-12V	20mA*20	0.24W*20	60	12	800mcd*60
