

Waterproof 4Leds Module

◆Features:

1. This product adopts four piranha LEDs as its luminous body. Wires come out from the bottom of module. These Three LEDs are set evenly on the board. In this way, the module could achieve very high intensity.
2. The LED luminous body is of very high intensity, large viewing angle, good quality and stability.
3. ABS housing filled with epoxy-can achieve waterproof rate is IP68.
4. Available Color: Red, Yellow, Blue, White, Warm White, etc.
5. Consumption Watt:0.48W/PC.
6. This product could be widely used for channel letters, signs, logos, etc.
7. Package: white box
8. Operating voltage: 12V DC

◆Model and Technical Parameters:

Description	Part No	Current Per Piece (mA)	Consumption Watts Per Piece	Max. No. of One Loop	Intensity (mcd)	Viewing Angle	Measurement
Red	JY-M4R-IP68	20mA*2	0.24W*2	50	1200mcd*4	90°	40*40mm
Yellow	JY-M4Y-IP68	20mA*2	0.24W*2	50	1300mcd*4	90°	40*40mm
Blue	JY-M4B-IP68	20mA*2	0.24W*2	50	500mcd*4	90°	40*40mm
Green	JY-M4G-IP68	20mA*2	0.24W*2	50	1600mcd*4	90°	40*40mm
White	JY-M4W-IP68	20mA*2	0.24W*2	50	2000mcd*4	90°	40*40mm
Warm White	JY-M4WW-IP68	20mA*2	0.24W*2	50	1800mcd*4	90°	40*40mm
