

1*1W Flood Light

Features:

- ◆ Round Flood Light adopts 1 W High Power LED as its luminous body, which is of high intensity, low power consumption, good stability and long longevity.
- ◆ This product is powered by 12VDC/AC. High efficient and wide voltage constant current driver keeps stable current of the product.
- ◆ It is exquisite in appearance with dark-grey aluminum housing and high transparent toughened glass surface. Perfect design in heat-sinking. Protection class is IP65.
- ◆ Available color: Red, Yellow, Blue, Green, White, etc.
- ◆ Beaming angle: 9°
- ◆ Power Consumption: 1.5W / PC
- ◆ Packing: Carton
- ◆ This product can be installed very conveniently by matched aluminum mounting base and the light direction can be adjusted at will.
- ◆ Working temperature: -20°C ~ +40°C
- ◆ This product can be widely used for partial lighting, indirect lighting, spot and flood lighting, etc.

RGB Round Spot Light parameter chart:

Description	Part No	Color	Input Voltage	Consumption Watts	LED type	LED Qty	luminous flux/pc(lm)	Beaming Angle(°)	Size	IP Class
Flood Light	IMG-F1X-PR	Each color	12VAC/DC	1.5W	1W power LED	1	50lm	30°	38(W)*70(H)*55 (L) mm	IP65
